HYDRAULIC CHUCKS

NEW

SL

PERFORMANCE
HIGHLIGHTS

You need more? More performance? Application specialists?

In addition to our SuperLine programme you will find selected performance highlights from Gühring in this catalogue. The right tool for every application and high efficiency.

All from a single source.

NEW

RT 100 XF SOLID CARBIDE DRILLING TOOL

FOR EXCEPTIONAL METAL REMOVAL RATES

NEW

TAPS

UNIVERSAL HIGH PERFORMANCE PRODUCTION OF THREADS

NEW

RF 100 DIVER SOLID CARBIDE MILLING CUTTER

DRILLING, RAMPING, ROUGHING, FINISHING, SLOTTING

NEW

HR 500 REAMER

PERFECT REAMING IN STEEL

NEW

HT 800 INDEXABLE INSERT SYSTEM

FOR DEEP AND HIGHLY ACCURATE DRILLING

NEW

RT 100 T SOLID CARBIDE GUN DRILL

SOLID CARBIDE SPIRAL-FLUTED DEEP HOLE DRILL

NEW

MTMH3-Z DRILL THREAD MILLING CUTTER

UP TO 66 HRC

Your complete cutting tool provider

Guhring have made huge investments in both our new facility and the latest technology to enable us to stock massive numbers of standard tools and provide manufacturing operations that encompasses everything from design and consultation through to tool production, coating, polishing, re-grinding and testing.

RT 100 XF
NEW. EXTREME. POWERFUL.

Ratio drills with coolant ducts

5xD | RT 100 XF | DIN 6537L | 140° | m7

Tool material	Solid carbide
Surface	F
Shank form	HA

P	●	relieved cone • main cutting edge form concave • optimised cutting geometry • maximum performance
M	○	
K	○	
N		structural and case hardened steels • free-cutting steels, heat-treatable steels • steels (alloyed/unalloyed) up to 1400 N/mm²
S	○	
H	○

Interchangeable inserts HT 800

HT 800 WP | WN | 140° | h7

Tool material	Solid carbide
Surface	F
Type	HT 800 WP

P	•	web thinning ≥ Ø 11.000 • facet point grind • main cutting edge form straight (after correction) • clamping screws art. no. 4071 included
M	○	
K	○	
N		free-cutting steels, heat-treatable steels • structural and case hardened steels • alloyed steels up to 1200 N/mm²

GUHRINGNAVIGATOR Ratio drills

Generally recommendations:
For safety reasons it is very important, that a drill does not exceed a speed of n = 6,000 rev./min when unsupported. The centrifugal forces can break these long tools before reaching the workpiece surface!

Application recommendations for 7xD, 10xD and 12xD drills: Pilot holes are necessary for extra length SL drills 7xD: 1.) The pilot hole can be produced with a short, rigid drill. The diameter should be 0.01-0.02 mm larger than the diameter of the SL drill, the drilling depth > 1xD.

2.) Alternatively SL drills can produce their own pilot hole. Cutting speed and feed rate should be reduced by 30-40 %.

The recommended **minimum coolant pressure** is 40 bar.

GUHRINGNAVIGATOR Ratio drills

Generally recommendations:
For safety reasons it is very important, that a drill does not exceed a speed of n = 6,000 rev./min when unsupported. The centrifugal forces can break these long tools before reaching the workpiece surface!

Application recommendations for 7xD, 10xD and 12xD drills: Pilot holes are necessary for extra length SL drills 7xD: 1.) The pilot hole can be produced with a short, rigid drill. The diameter should be 0.01-0.02 mm larger than the diameter of the SL drill, the drilling depth > 1xD.

2.) Alternatively SL drills can produce their own pilot hole. Cutting speed and feed rate should be reduced by 30-40 %.

The recommended **minimum coolant pressure** is 40 bar.

Milling cutters

RF 100 U

GUHRINGNAVIGATOR

Tools with **bold** feed column no. (FC no.) are preferred choice.

a_e = Width of cut

a_p = Depth of cut

Slot milling

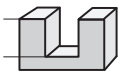
		Tool material	Solid carbide	Solid carbide
		Type	N	N
Art. no.	DIN 6527	HA	5730	5507
	DIN 6527	HB	5530	5531
	Company standard	HA		
	Company standard	HB		

* For large cutting depths on unstable machines f_z and v_c must be reduced or a 4-flute tool RF 100 (art. no. 5582) must be applied.

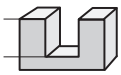
** To improve the surface quality, the milling angle should be 10°-15°.

a_e = 1xD

a_e = 1xD



a_p = 0.5xD



a_p = 0.5xD

DIN 6527	HB	5535* 5534*	
Company standard	HA		5582
Company standard	HB		

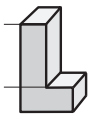
* With this application, optimal chip evacuation must be ensured. Slot milling only recommended > Ø 5 mm.

** In the event of excessive edge wear through vibration, the feed rate should be reduced by 30 %.

a_e = 0.5-1.0xD

a_e = 0.25xD

a_p = 1xD



a_p = 2xD

90° Countersink sets, spiral-fluted

DIN 335 | 90° | C

Tool material	HSCO
Surface	A
Shank form	3-flats
	SL

P	•
M	•
K	•
N	○
S	○
H	

- consisting of art. no. 5501
- 3 different convex cutting edges
- 3-flats on shank prevents slipping in the chuck
- perfect for hand drills
- low-vibration cutting processes
- for round and chatter-free countersinking
- considerably lower feed force required
- for universal application

Tools with bold feed column no. are preferred choice.
For blind holes with close diameter tolerances choose straight-fluted reamers.

To select the optimal tool and the recommended machining parameters for your application, please also use the electronic version of the GühringNavigator on the internet: www.guehring.com.

TOOL HOLDERS

HSK-A hydraulic chucks

WN HSK-A

SL

Product information:

- HSK-A to ISO 12164-1 / DIN 69893-1
- axial length adjustment
- for tool shank tolerance h6
- Balance quality values G2.5 / 25.000 U/min or U < 1 gmm

Scope of delivery:

- incl. setting screw art. no. 4900
- incl. clamping key art. no. 4912
- order coolant supply set, article no. 4949, separately

	Article no.	4662
	Discount group	158

MAS/BT hydraulic chucks

WN | MAS-BT

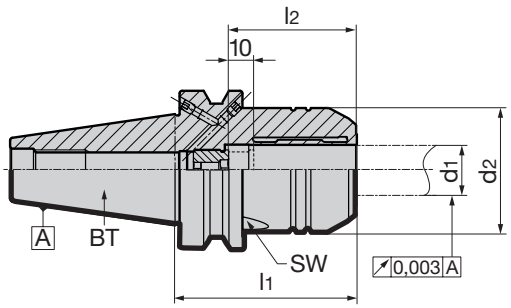
SL

Product information:

- MAS/BT to DIN ISO 7388-2 Form JD/JF
- axial length adjustment
- for tool shank tolerance h6
- Balance quality values G2.5/25.000 U/min or U < 1 gmm

Scope of delivery:

- incl. setting screw art. no. 4900
- incl. clamping key art. no. 4912
- for MAS/BT order pull studs art. no. 4927, 4928 separately



Article no.	**4664**

HPC chucks

Hydraulic chucks

Art. no.	Clamping chucks		Description	Clamping diameter range
4299		★	HSK-A hydraulic chuck with increased clamping force	6 - 32 mm
4296		★	HSK-A hydraulic chuck with radial length setting	6 - 32 mm
4267		★	HSK-C hydraulic chuck with increased clamping force	6 - 32 mm
4295		★	HSK-C hydraulic chuck	6 - 32 mm
4213		★	ISO taper hydraulic chuck DIN 69871 AD/B with increased clamping force	6 - 32 mm
4221		★	MAS/BT hydraulic chuck with increased clamping force	6 - 32 mm
4368		★	Reduction bushes for hydraulic chucks without peripheral cooling	3 - 25 mm
4369		★	Reduction bushes for hydraulic chucks with peripheral cooling	3 - 25 mm

HPC chucks

4300		★	HSK precision clamping chuck	3 - 20 mm
4301		★	ISO taper clamping chuck DIN 69871 AD	3 - 20 mm
4302		★	Clamping sleeves for precision clamping chucks without peripheral cooling	3 - 20 mm
4235		★	Clamping sleeves for precision clamping chucks with peripheral cooling	3 - 20 mm

Shrink fit chucks

Art. no.	Clamping chucks		Description	Clamping diameter range
4755		★	**GÜHRO**Jet HSK-A shrink fit chuck with peripheral cooling	6 - 20 mm
4729		★	**GÜHRO**Jet ISO taper shrink fit chuck DIN 69871 AD/B	6 - 20 mm
4736		★	HSK-A shrink fit chuck	6 - 32 mm
4758		★	HSK-C shrink fit chuck	6 - 32 mm
4737		★	HSK-E shrink fit chuck	3 - 32 mm
4738		★	ISO taper shrink fit chuck DIN 69871 AD	3 - 32 mm
4739		★	MAS/BT shrink fit chuck	3 - 32 mm
4719		★	Shrink fit extension	3 - 20 mm

Tool holders

4232		★	**GÜHRO**Jet Side lock holder Weldon HSK-A	6 - 32 mm
4317		★	**GÜHRO**Jet Side lock holder Weldon SK	6 - 32 mm
4234		★	**GÜHRO**Jet Side lock holder Weldon MAS/BT	6 - 32 mm

Application-specific selection of tool holders

	Shrink fit chucks / shrink fit extensions	Hydraulic chucks / HMC 3000 / reduction bushes	GÜHROSYNC Hydraulic synchro tapping chucks
			Main feature	For applications requiring slim interference contours and precision with good clamping force and rigidity at a moderate price.	Easy handling when stiffness and damping are required.	Combines the advantages of hydraulic expansion and synchro-clamping technology, compensates deviations of the machine optimally.
Main application	HSC – universal Drilling, countersinking, milling, reaming	Reaming and drilling Countersinking, HSC application, light milling	Synchronized thread cutting and thread forming
Characteristics	• highest concentricity accuracy thanks to patented damping screw • high stiffness and clamping force • modularly extendable	• high damping with high concentricity accuracy • simple handling • flexible use thanks to reducing bushes also with **GÜHRO**Jet	• perfect combination of hydraulic expansion chuck and synchro tapping chuck • simple handling • flexible use thanks to reducing bushes also with **GÜHRO**Jet • long-lasting axial and radial balancing
Interfaces	HSK-A, HSK-C, HSK-E, SK, MAS-BT, CAT, Cyl	HSK-A, HSK-C, SK, MAS-BT, CAT	HSK-A, SK, MAS-BT, Cyl
Clamping diameter range	3 - 32 mm	3 - 32 mm	Holder Ø 12: M2 - M12 (Mt max.: 26 Nm) Holder Ø 20: M4.5 - M20 (Mt max.: 90 Nm)
Concentricity	< 3 µm	< 3 µm	< 50 µm
Balance quality	G 2.5 with 25,000 1/min or U < 1 gmm	G 2.5 with 25,000 1/min or U < 1 gmm	G 6.3 with 15,000 1/min
Concentricity with 5xD	< 5 µm	< 5 µm	-
Clamping force	very high	very high	very high
Rigidity	very high	high	medium
Dampening	low	very high	very high
Interference contour	small / minimal	medium	medium
Handling	good	very good / very flexible	very good / very flexible
Actuation	Shrink fit device e. g. GSS 2000 article no. 4742	Hexagon key e. g. article no. 4912	Hexagon key e. g. article no. 4912

	HPC precision power chucks / clamping sleeves	Collet chucks ER	Straight shank holders “Weldon” / “Whistle-Notch”
			
Main feature	Provides extreme clamping force and rigidity to compensate lateral forces acting on the tool during HPC milling.	All-rounder for universal use in the low accuracy range.	Simple handling with safe clamping for applications involving large machining volumes.
Main application	HPC milling heavy HPC and fast, accurate HSC milling, drilling, universal application	Flexible – universal light machining, centering, chamfering, drilling, threading; intermediate shank dimensions	Roughing Milling, drilling
Characteristics	• extreme clamping force and stability thanks to mechanical clamping transmission • high precision and balancing quality • flexible use thanks to reducing bushes also with **GÜHRO**Jet	• flexible chuck for various shank dimensions and tolerances • for conventional machining operations	• robust, low cost chuck • for heavy machining in the lower speed and accuracy range
Interfaces	HSK-A, SK, MAS-BT, CAT, Cyl	HSK-A, HSK-C, HSK-E, SK, MAS-BT	HSK-A, HSK-C, SK, MAS-BT
Clamping diameter range	3 - 32 mm 1 - 6 mm (HPC extensions)	ER 11: 0.5 - 7.0 mm ER 16: 0.5 - 10.0 mm ER 20: 0.5 - 13.0 mm ER 25: 0.5 - 16.0 mm ER 32: 1.0 - 20.0 mm ER 40: 3.0 - 26.0 mm	6 - 40 mm
Concentricity	< 3 µm	< 10 µm	< 10 µm
Balance quality	G 2.5 with 20,000 1/min or U < 1.2 gmm	G 2.5 with 25,000 1/min or U < 1 gmm	G 6.3 with 15,000 1/min
Concentricity with 5xD	< 8 µm	< 20 µm	< 25 µm
Clamping force	extremely high	medium	very safe thanks to threaded pin
Rigidity	extremely high	medium	very high
Dampening	high	high	low
Interference contour	medium	large	large
Handling	very good / very flexible	good	good
Actuation	Hexagon key / torque wrench e. g. article no. 4987 + 4916 Type D	Hook spanner max. torque: information at GM 300 catalogue at clamping screw article no. 4903	Hexagon key max. torque: information at GM 300 catalogue at clamping screw article no. 4903

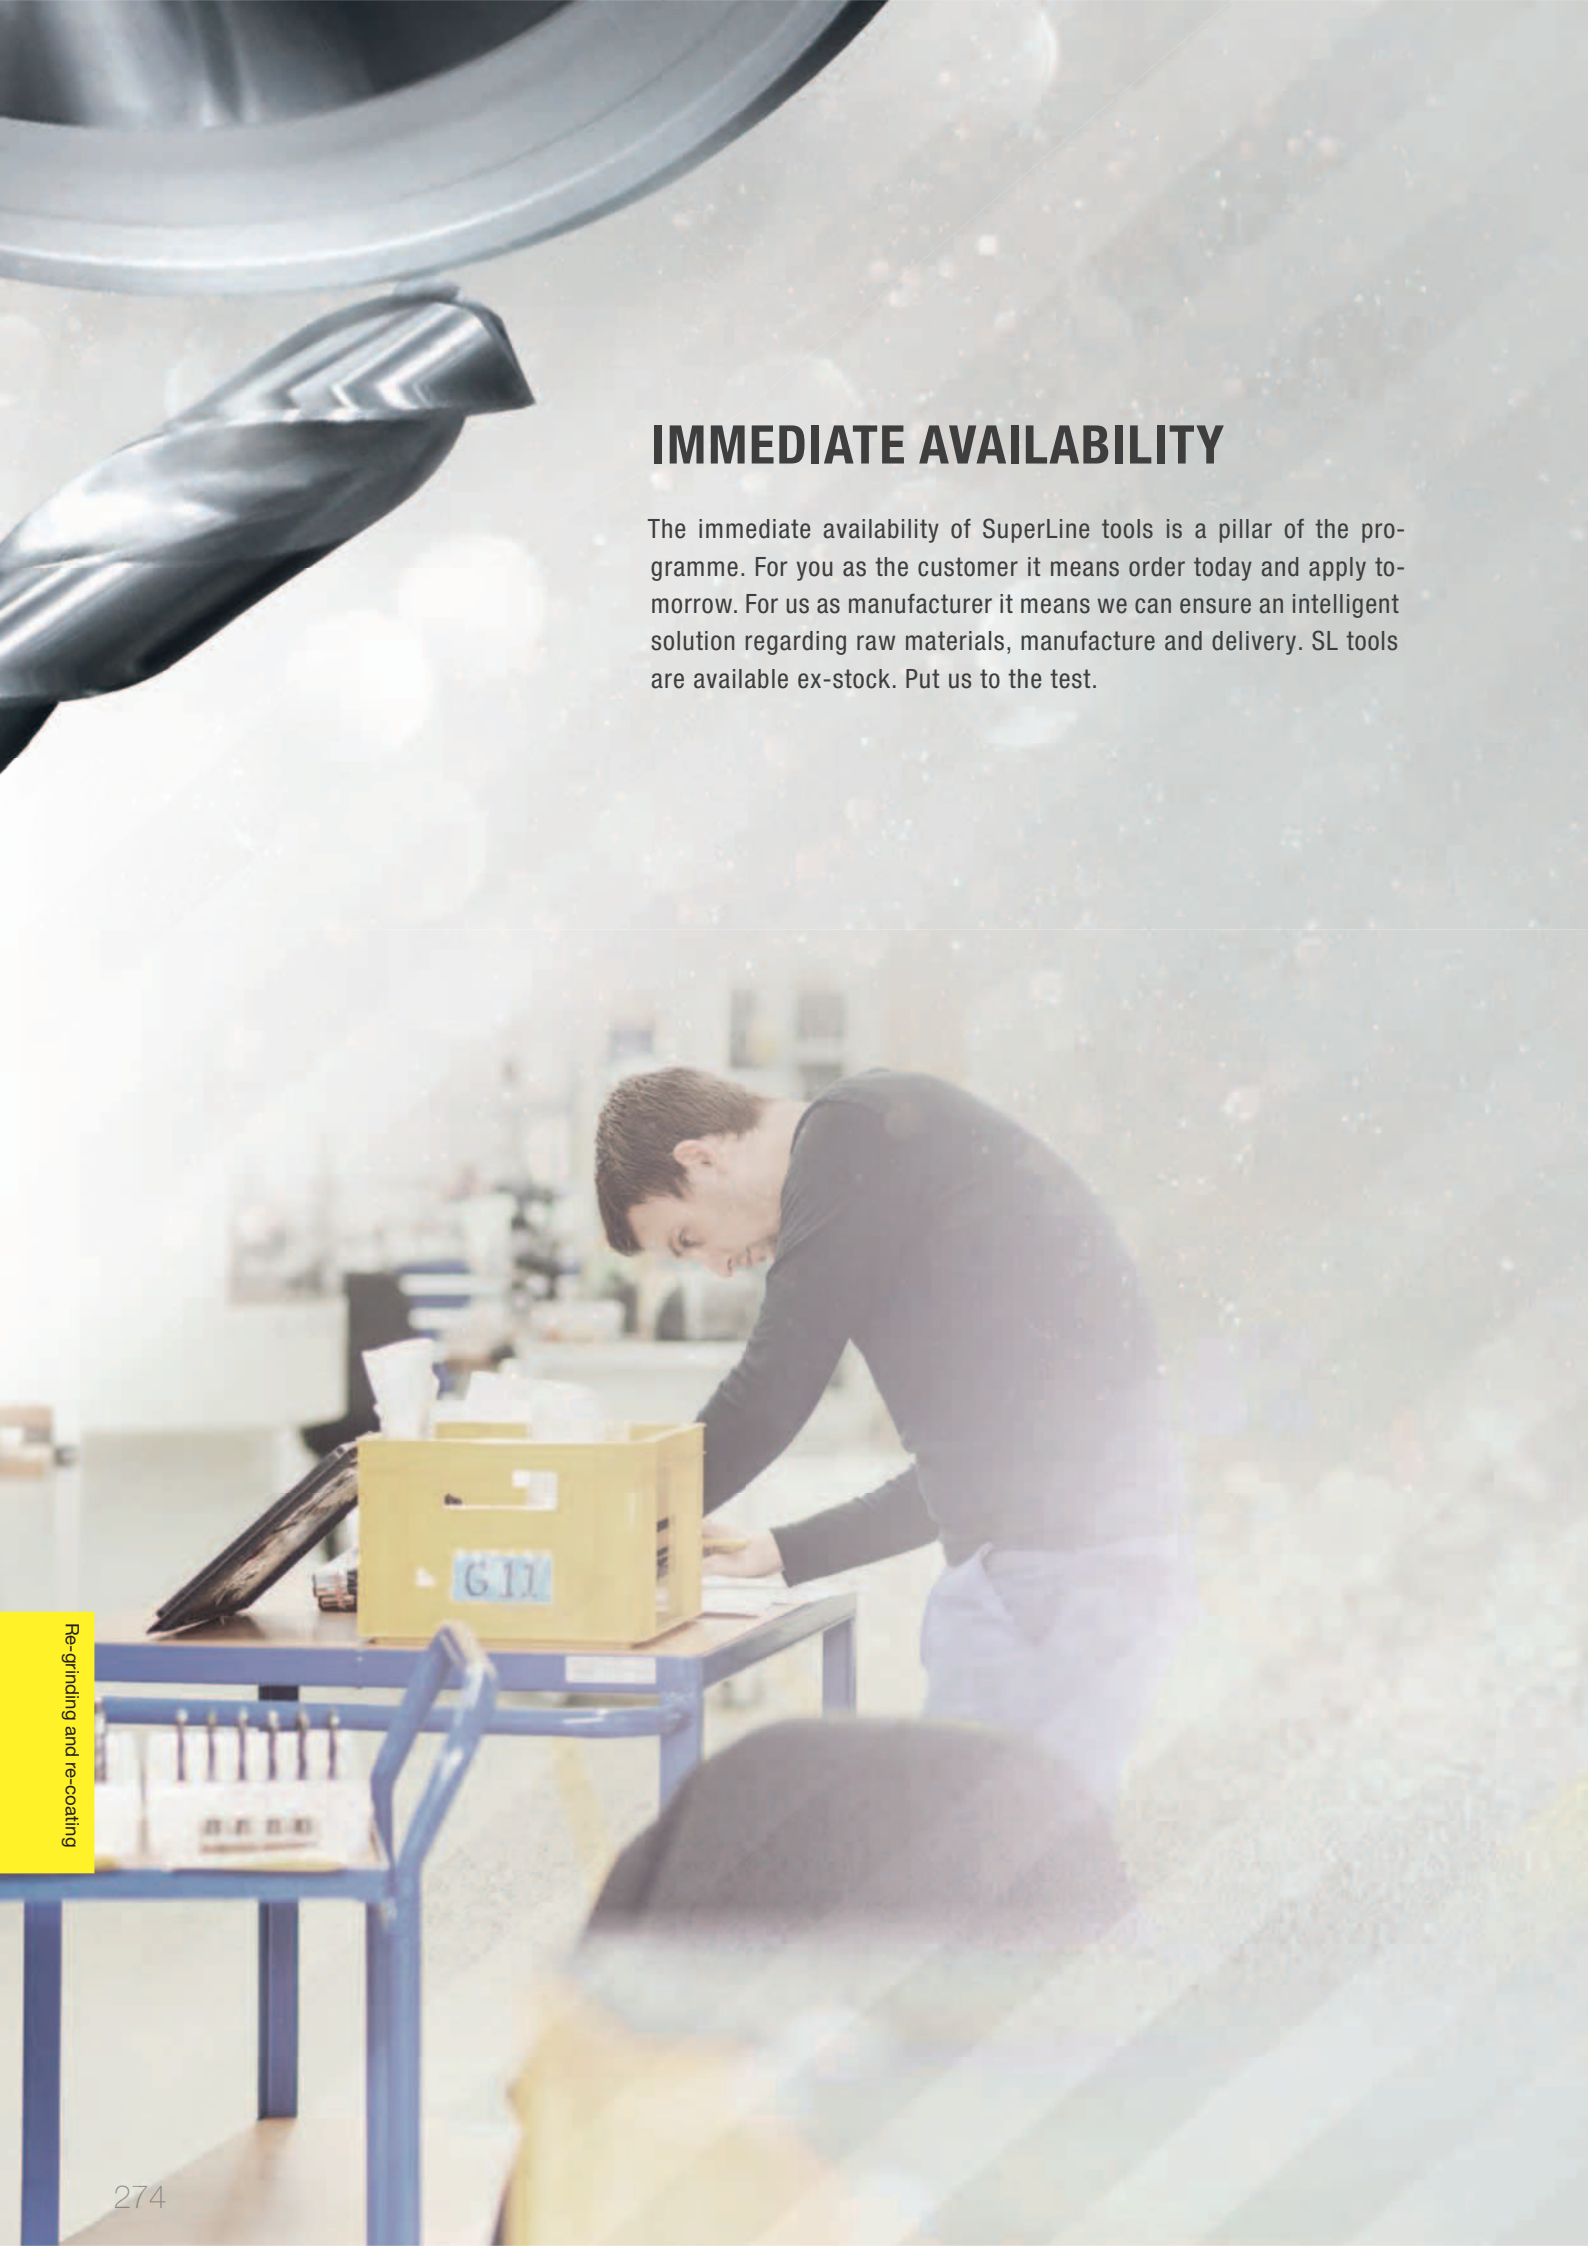
RE-GRINDING AND RE-COATING

IMMEDIATE AVAILABILITY

The immediate availability of SuperLine tools is a pillar of the programme. For you as the customer it means order today and apply tomorrow. For us as manufacturer it means we can ensure an intelligent solution regarding raw materials, manufacture and delivery. SL tools are available ex-stock. Put us to the test.



MAXIMUM EFFICIENCY

Gühring provides a re-grind and re-coating service to ensure a long tool life of SuperLine tools. Reprocessing in original quality restores the original performance. There are more than 50 service centers available worldwide for this. Each of them has its own pick-up and delivery service for on-time logistics.

SUCCESS STORY

GUHRING – A UK MANUFACTURING SUCCESS STORY

In 2017, Guhring opened its new 'state-of-the-art' manufacturing facility in the heart of Birmingham. Since the opening, Guhring has invested heavily in the latest technology for producing solid carbide, HSS and PCD cutting tools at breakneck speeds. The new 60,000sq/ft facility is the only UK cutting tool manufacturing operation that encompasses everything from design and consultation through to tool production, polishing, coating, re-grinding and testing.

UK SERVICES

REGRIND / RECOAT AND 3D PRINTING SERVICE

Even the most resilient tool will wear over prolonged periods of use. With professional regrinding and recoating using the original geometries and coatings, Guhring reproduces the original tool and performance, so that the tools continue to satisfy all quality parameters.

Here at Guhring in Birmingham we offer a number of services. These include:

Decoating
A high tech process that completely and safely removes the coating which allows tools with tight tolerances to be recoated without losing tolerance – critical for precision tools such as reamers.

Regrinding
To offer customers the highest quality cutting tools at significantly reduced cost, our in-house regrinding division will return your used cutting tools to near new condition. To ensure our quality surpasses that of our rivals, we have even manufactured our own tool grinding machines.

Our regrinding service means you can save up to 70% on tool costs by using Guhring's precision regrinding service. Guhring will also regrind competitors tools.

3D Printing – Additive Manufacturing

The process of constructing a 3D object from a digital model. Contact our technical team to learn how this revolutionary process is solving problems.

Coating
Thin film coatings, when properly applied, improve tool performance and tool life. They increase surface hardness, lower the friction coefficient and thermal conductivity and provide a chemically inert surface.

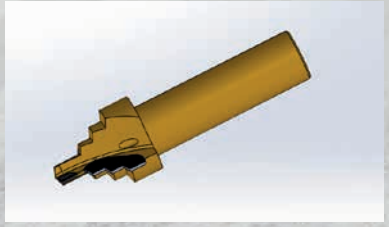
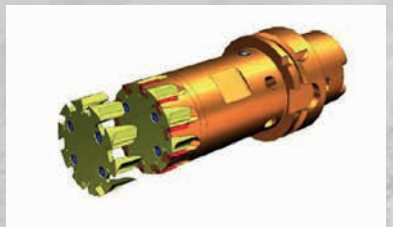
MODERN TECHNOLOGY PROVIDING INNOVATIVE SOLUTIONS



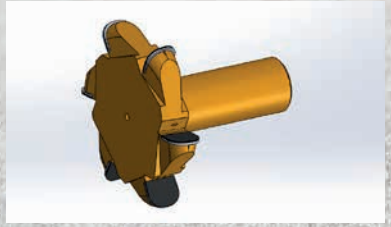
PCD Multi Step Drill

Solid carbide body with internal coolant supply. Combining multi diameter drilling and spot facing.



PCD Milling Cutter

Special tool using a steel body and a 3D printed 'Smart Cap' to safely evacuate chips from the workpiece.



PCD Slot Cutter

Tool body developed using 3D printing technology.
Enables strategically placed coolant holes for optimised cooling.

IN-HOUSE DESIGN & MANUFACTURE OF SPECIAL TOOLS

Why a Special Tool?

Do you…

require a specific tool for a job?	want to save money?	want shorter processing times?	want to reduce the number of tool changes and set-ups?	want improved machining accuracy?

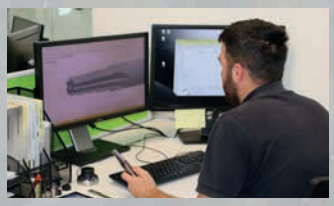
Once upon a time, a 'special tool' would be a variation of a standard product with a different flute length, overall length or maybe a diameter that wasn't printed in the 'standard' product catalogue whereas an 'engineered' solution was the epitome of application expertise with a lead-time that was somewhat justified by the consultation, design, manufacture and even testing of a 'tailored solution.'

Now, everybody wants a 'special' tool. When everybody wants a special, it's no longer a special – its an industry expectation. If you choose Guhring – you are selecting a manufacturer where 'Special' is the norm!

CONSISTENT QUALITY AT YOUR FINGERTIPS

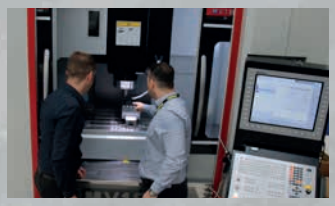
Stage 1: Project Scope

Our in-house experts can develop a cutting tool 'unique' to your requirements from a drawing, a part or even a concept.



Stage 2: Concept Design

Our engineers will implement a design aimed at achieving the desired outcomes of the customer. Maximising expectations on tool life, productivity and eliminating additional processes and the requirement for multiple tools.



Stage 3: Manufacture & Tool Testing

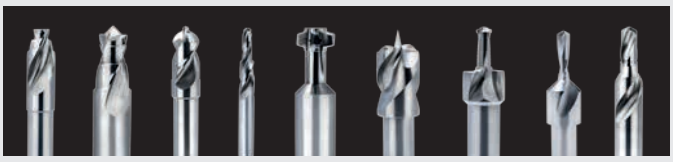
With our in-house test facility, we can trial the performance of special tools, ensuring Guhring special tools will fit straight into your production facility to deliver productivity gains from day one!

Stage 4: Project Approval

Upon meeting the performance criteria agreed, the customer can approve their tools with confidence.

Stage 5: Project Delivery

As one of the few UK manufacturers that can develop, design, manufacture, coat and test tools under one roof, Guhring will supply your special tools at remarkably fast turnaround times.



If you require more details on our special tooling services, contact our expert technical team on 0121 749 5544 or email specials@guhring.co.uk

E-LEARNING

GÜHRING Academy

- training programme for free
- digital learning world with a comprehensive training programme
- multimedia-based, interactive and practice-oriented

Interesting, varied **learning units** providing basic know-how and the latest product data.

The Gühring Online Academy is available **round the clock**. You decide when and where you would like to study.

If the learning unit is completed successfully, you will receive a **personalised certificate**.

The Gühring Academy can be attended for **free**. Sign in and benefit from the wide range of know-how offered.

It is also available as an **App** for downloading on your iPad.
